

## Quality Assurance Specialist: Edmonton

Optessa Inc. is looking for a QA Specialist to be based in its head office in Edmonton, Alberta. Optessa Inc. develops and sells scheduling and sequencing software to global automotive and product manufacturing companies. This dynamic company counts major auto manufacturers among its customers and is poised for continued growth. The company has offices in Edmonton, Alberta, Canada and New Jersey, USA.

The responsibilities will include

- Designing, creating and documenting test plans
- Designing and executing manual and automated test cases
- Tracking defects and preparing defect reports
- Maintaining test bed data sets
- Assisting in the preparation of product documentation and release notes

Required Skills:

- Relevant post-secondary education
- Problem solver that can work both independently and in a team
- Very detail-oriented
- Knowledge of software test methods including functional, regression, integration and load testing
- Knowledge of test plan and test case preparation

Other relevant skills:

- Knowledge of software test automation tools
- RDBMS (Oracle or MySQL preferred)
- Javascript (or similar scripting language)
- HTML

Training in the Optessa products and implementation processes will be provided.

Optessa offers a competitive salary and benefits package.

All applicants are thanked for their interest. However, only suitable candidates will be contacted for an interview.

Please send your resume to [jobs@optessa.com](mailto:jobs@optessa.com).
